

Divergent Classes – Master Feature List

Legend

Mark	Meaning
✓	Core & Essential – Build First
◇	Important but Secondary – Build Later
⚠	Complex Implementation – Plan Carefully
💡	Unique Differentiator – Worth the Effort

1. Courses & Content

- * ✓ Video upload with auto-quality streaming
- * ✓ Course structure – Courses → Chapters → Lessons
- * ✓ PDF, audio, and text content support
- * ✓ Content drip (schedule-based lesson release)
- * ✓ Course thumbnail, description, and tags
- * ✓ Downloadable resource attachments per lesson
- * ✓ Auto-archive live class recordings to course library
- * ◇ Multi-language content support (Future Plan to have auto AI Dubbing)
- * ◇ SCORM compliance support

2. Live Classes

- * ✓ Class scheduling with batch calendar
- * ✓ Automated reminders (24hr + 1hr before class)
- * ✓ Real-time attendance marking
- * ✓ Recording upload and access after class
- * ✓ Batch-specific class organization
- * ◇ Native live streaming (webinar + two-way meeting mode)
- * ◇ Live polls and Q&A during class
- * ◇ Digital whiteboard and screen sharing (NI)
- * ⚠ Breakout rooms for group activities(NI)
- * ◇ Support for 100+ concurrent users

3. Student Portal

- * ✓ Registration with email/phone OTP
- * ✓ Social login (Google/Apple)
- * ✓ Personal dashboard with full progress overview
- * ✓ Course completion percentage and progress bars
- * ✓ Lesson watched/unwatched status
- * ✓ Learning streak tracker (consecutive study days)
- * ✓ Watch time and study time analytics

- * ☒ Upcoming class and deadline widgets
- * ☒ Continue Learning quick access
- * ☒ Certificate download on course completion
- * ☐ Assignment submission interface within portal

4. Discord-Style Community Space

Channels

- * ☒ Text channels – UCEED Prep, NID/NIFT Prep, Doubt Clearing, General, Off-topic
- * ☒ Announcement channel (read-only, admin posting only)
- * ☒ Resource sharing channels (articles, references, tutorials)
- * ☒ Private batch-specific channels
- * ☐ Topic-based groups (Foundation Design, Portfolio Review, Exam Strategy)
- * ☐ Voice channels for group study sessions
- * ☐ Video channels for peer design critiques

Messaging

- * ☒ Real-time messaging with threaded replies
- * ☒ @mentions and user/group notifications
- * ☒ Image, PDF, and file sharing in chat
- * ☒ Emoji reactions and pinned messages
- * ☒ Message search and filtering
- * ☐ Custom emojis for community
- * ☐ Screen sharing within community channels
- * ☐ Live streaming within community for informal sessions (Future Plan)

Self-Assign Role System (Can be a part of onboarding)

- * ☒ Role selector on joining – UCEED/NID/NIFT Aspirant, Alumni, Mentor
- * ☒ Batch year tags – 2026, 2027, Foundation
- * ☒ Skill level tags – Beginner, Intermediate, Advanced
- * ☒ Interest tags – Sketching, Industrial Design, Graphic Design, Animation
- * ☒ Auto-assign roles based on course enrollment
- * ☒ Multiple roles allowed per user
- * ☐ City/Region tags for local meetups
- * ☐ Custom role colors for visual hierarchy

Moderation

- * ☒ Moderator roles for mentors and senior students
- * ☒ Channel permissions (who can post, react, access)
- * ☒ Mute/ban capabilities for community managers
- * ☒ Content reporting system
- * ☐ Auto-moderation rules (keyword filtering, link restrictions)
- * ☐ AI-assisted spam and inappropriate content flagging

5. Progress Tracking Dashboard

Student View

- * ☒ Visual progress bars per course and module
- * ☒ Course completion percentage with milestones
- * ☒ Daily and weekly study time analytics
- * ☒ Module-wise completion status
- * ☒ Missed classes and assignments alerts
- * ☒ Upcoming deadlines calendar
- * ☐ Personalized next recommended steps
- * ☐ Milestone celebration animations

Batch-Level Progress

- * ☒ Attendance heatmap by student and date
- * ☐ Average batch performance overview
- * ☐ Batch completion rate tracking
- * ☐ Cohort comparison – where you stand vs peers
- * ☐ Engagement leaderboard (optional, privacy-controlled)

Performance Analytics

- * ☒ Assessment performance trends over time
- * ☐ Subject-wise strength mapping
- * ☐ Topic mastery levels – Weak / Moderate / Strong
- * ☐ Time spent per topic and module
- * ☐ AI-predicted exam readiness score
- * ☐ Learning velocity (pace of completion analysis)

6. Doubt Management System

- * ☒ Doubt ticket submission (text + image attachment)
- * ☒ Subject, topic, and priority tagging (High/Medium/Low)
- * ☒ Manual mentor assignment by admin
- * ☒ Email and push notification to assigned mentor
- * ☒ Mentor reply interface with file attachment support
- * ☒ Student notification on doubt resolution
- * ☒ Doubt history view for each student
- * ☒ Re-open option for unresolved doubts
- * ☒ 1-5 star rating after each resolved doubt
- * ☐ Auto-assignment based on mentor expertise and workload
- * ☐ Escalation – auto-reassign if no response in 24hrs
- * ☐ AI-suggested responses for mentors from similar past doubts
- * ☐ Batch-wise and topic-wise doubt trend analytics

7. Mentor Performance & Workload Tracking

Response Monitoring

- * ☒ Pending doubt count per mentor
- * ☒ Average first response time tracking
- * ☒ Average resolution time tracking
- * ☒ Resolution rate – solved vs unsolved
- * ☒ Student satisfaction ratings per mentor
- * ☐ Quality score based on ratings and re-open rate
- * ☐ Doubt frequency analysis by topic

Workload Distribution

- * ☒ Active doubt queue per mentor
- * ☒ Daily/weekly ticket count per mentor
- * ☐ Workload balance dashboard across all mentors
- * ☐ Capacity settings (max doubts per mentor per day)
- * ☐ Mentor availability status – Available / Busy / Offline
- * ☐ Auto-balancing algorithm for fair doubt distribution
- * ☐ Historical workload reports

Activity Tracking

- * ☒ Login frequency and active hours
- * ☒ Class attendance and punctuality tracking
- * ☒ Content upload activity (courses and resources)
- * ☒ Community participation (messages, doubts answered)
- * ☒ Student feedback scores per mentor
- * ☐ Comparative performance vs other mentors (admin-only)

Performance Alerts

- * ☒ Overload alert (more than 20 pending doubts)
- * ☒ Inactivity alert (no login for 48+ hours)
- * ☐ Low response rate warning (less than 70 percent answered in 24hrs)
- * ☐ Negative feedback alert (below 3-star average)
- * ☐ Workload imbalance flag (one mentor handling more than 60 percent doubts)
- * ☐ Deadline miss reports (classes/content not uploaded on time)

8. Project Management

Task & Assignment Management (For Admin Use)

- * ☒ Kanban boards – To Do → In Progress → Review → Done
- * ☒ Assignment creation with title, description, deadline
- * ☒ Individual and group task assignment
- * ☒ Priority labels – High / Medium / Low

- * ☒ File submission by students
- * ☒ Mentor feedback on submissions
- * ☒ Overdue task alerts
- * ☐ Subtask breakdown for complex assignments
- * ☐ Milestone creation for multi-phase projects
- * ☐ Task dependencies (Task B unlocks after Task A)

Collaborative Workflows (Admin use)

- * ☒ Comment threads on tasks for feedback
- * ☒ Approval workflow – Submit → Review → Approve/Revise
- * ☐ Group project spaces with shared boards
- * ☐ Feedback annotation tools (markup on images/PDFs)
- * ☐ Version control for design iterations (v1, v2, v3)
- * ☐ Design brief templates for standardized project kickoff

9. Schedule & Calendar

- * ☒ Master calendar – classes, assignments, tests, events
- * ☒ Monthly, weekly, and day view
- * ☒ Filter by course, batch, or mentor
- * ☒ Recurring class automation
- * ☒ Deadline countdown widgets
- * ☒ Google Calendar sync
- * ☐ Availability scheduling for 1-on-1 mentor sessions

10. Assessment & Mock Tests

- * ☒ Quiz builder – MCQ, multiple response, true/false
- * ☒ Image-based questions
- * ☒ Timed tests with auto-submit
- * ☒ Auto-grading with instant results
- * ☒ Topic-wise accuracy breakdown
- * ☒ Practice question bank (filter by topic/difficulty)
- * ☐ Full-length mock tests (UCEED/NID/NIFT pattern)
- * ☐ Time-spent per question analysis
- * ☐ Batch leaderboard after test submission
- * ☐ Sketch/design upload for subjective evaluation
- * ☐ AI-generated quizzes from course content (Future Plans)
- * ☐ Peer review system for design assignments

11. Team Productivity & Internal Workspace (NI)

Internal Collaboration

- * ☒ Separate admin/team portal (fully distinct from student app)
- * ☒ Department channels – Content, Marketing, Mentor, Tech
- * ☒ Task boards for internal projects
- * ☒ File repository with version control (brand assets, SOPs)
- * ☒ Meeting notes and documentation hub
- * ☐ Shared resource library (templates, stock images, scripts)
- * ☐ Optional time tracking for tasks
- * ☐ Decision log (important choices and reasons)
- * ☐ Team productivity analytics

Marketing Campaign Management

- * ☒ Content calendar with platform tags (YouTube, Instagram, LinkedIn)
- * ☒ Asset management for reels, thumbnails, graphics
- * ☒ Approval workflow – Draft → Review → Approved → Published
- * ☒ Campaign task boards for team
- * ☐ A/B testing tracker for thumbnails/titles
- * ☐ UTM parameter integration
- * ☐ Campaign ROI dashboard (ad spend vs enrollments)
- * ☐ Publishing schedule automation

Design Requirement Collaboration

- * ☒ Design request forms (thumbnail, banner, graphic)
- * ☒ Feedback annotation on mockups
- * ☒ Revision tracking (v1, v2, v3 with comments)
- * ☒ Design approval with stakeholder sign-off
- * ☐ Design brief templates with auto-fill fields
- * ☐ Mood board creation within app
- * ☐ Brand guideline repository embedded in platform

12. AI-Powered Features

- * ☐ AI chatbot for 24/7 student doubt resolution
- * ☐ Personalized learning path based on performance
- * ☐ Smart content recommendations for weak topics
- * ☐ AI-suggested mentor responses from past doubts
- * ☐ Smart doubt routing to best-matched mentor
- * ☐ Auto-quiz generation from course content
- * ☐ Speech-to-text lecture transcription
- * ☐ AI grading for subjective answers
- * ☐ Plagiarism detection for assignments (NI)
- * ☐ Predictive workload balancing across mentors
- * ☐ Anomaly detection – student disengagement, mentor burnout
- * ☐ Content gap identification from doubt patterns
- * ☐ Smart class scheduling from attendance data

13. Gamification & Engagement

- * ◇ Achievement badges – 7-Day Streak, Early Bird, Top Contributor, First Sketch
- * ◇ XP points – Attend class, Complete lesson, Help peer in community
- * ◇ Level progression – Novice → Apprentice → Designer → Master
- * ◇ Weekly challenge events – Sketch Challenge, Mock Test Marathon
- * ◇ Reward unlocks – exclusive content, mentor 1-on-1 sessions
- * ◇ Badge showcase on student profiles
- * ⚠ Community leaderboards (opt-in, privacy-controlled)

14. Design-Specific Community Tools

- * 💡 Portfolio showcase on student profiles
- * 💡 Mentor-curated reference image library
- * 💡 Design challenge submissions with voting
- * 💡 Inspiration board (community-curated examples)
- * ◇ In-app sketch pad for quick annotations in discussions
- * ⚠ Peer design review system with structured feedback

15. Payment & Enrollment

- * ☒ Razorpay integration (UPI, cards, wallets, net banking)
- * ☒ One-time course purchase and batch enrollment
- * ☒ Auto-enrollment after payment confirmation
- * ☒ Invoice and receipt generation
- * ☒ Discount coupons and referral codes
- * ◇ Subscription plans (monthly/yearly)
- * ◇ Cart abandonment recovery emails
- * ◇ Refund processing system
- * ◇ Global payment support (Stripe/PayPal) (Future Plans)

16. Automation

- * ☒ Auto-enrollment on payment confirmation
- * ☒ Welcome email on new signup
- * ☒ Class reminder emails/SMS (24hr + 1hr before)
- * ☒ Assignment deadline reminder notifications
- * ☒ Certificate auto-generation on completion
- * ☒ Course access expiry for time-bound batches
- * ◇ Re-engagement emails (inactive for 7+ days)
- * ◇ Doubt escalation auto-triggers
- * ⚠ Full multi-step email sequence automation

17. Security & Content Protection

- * ☒ DRM video protection (browser download prevention)
- * ☒ User email/ID watermark on video player
- * ☒ Parallel login restriction (max 2 devices)
- * ☒ OTP-based login verification
- * ☒ Two-factor authentication (2FA)
- * ☒ SSL/HTTPS encryption across platform
- * ☒ Daily automated data backups
- * ☒ Role-based access control
- * ☒ Secure payment processing
- * ☐ Video skip prevention (watch time control)
- * ☐ Piracy monitor (multiple IP access alerts)
- * ☐ Screenshot and screen recording prevention
- * ☐ IP-based access restrictions per course

18. Privacy Controls

- * ☒ Student privacy settings (hide from leaderboards)
- * ☒ Anonymous feedback option
- * ☒ Right to delete account and data
- * ☒ No third-party data sharing without permission
- * ☐ Data export (students download their own data)
- * ☐ GDPR-compliant data handling
- * ☐ Consent management system
- * ☒ Admin activity logs (who did what, when)

19. White Label & Branding

- * ☒ Fully branded website (zero external platform branding)
- * ☒ Custom domain support
- * ☒ Custom logo, colors, and fonts
- * ☒ Custom certificate design
- * ☒ SEO optimization tools
- * ☐ DIY landing page builder
- * ☐ App icon and splash screen customization
- * ☐ Branded iOS and Android apps
- * ☐ Terminology customization (button/label names)

20. Admin Panel

- * ☒ Master analytics dashboard (enrollments, revenue, engagement)
- * ☒ Student management and moderation tools
- * ☒ Course upload and scheduling interface
- * ☒ Manual enrollment/unenrollment controls
- * ☒ Doubt monitoring and mentor assignment
- * ☒ Broadcast announcement system
- * ☒ Promo code and coupon creation
- * ☒ Mentor performance overview
- * ☒ Revenue and payment reports
- * ☐ Bulk operations (messaging, enrollments, exports)
- * ☐ Custom report builder
- * ☒ Export all data to CSV/Excel

21. Mobile App

- * ☒ Fully responsive web app (works on all mobile browsers)
- * ☐ Native Android app (Google Play Store)
- * ☐ Native iOS app (Apple App Store)
- * ☐ Offline video download with DRM
- * ☒ Push notifications
- * ☐ Low bandwidth mode for slow internet
- * ☐ Background audio playback for lectures
- * ☐ PWA (Progressive Web App) support
